

Staff Report

To: CGA-GGA Joint Executive Committee

Agenda Item: 3. Colusa Subbasin Groundwater Sustainability Plan Implementation

Date: January 28, 2022

Background

The Colusa Subbasin Groundwater Sustainability Plan (GSP) was adopted by the Colusa Groundwater Authority (CGA) on December 13, 2021 and by the Glenn Groundwater Authority (GGA) on December 14, 2021. The GSP and required documentation is being uploaded to the SGMA Portal and will be submitted by the January 31, 2022 statutory deadline. This marks an important milestone moving the GSAs from the planning phase to the implementation phase.

The purpose of this item is for Executive Committee members and staff to receive updates, brainstorm ideas, and share thoughts on a variety of topics relating to implementing the GSP.

Key topics include:

- GSA Staffing
- Outreach and Engagement Support
- Annual Reports
- Funding and Financing Mechanisms

Discussion on the key topics could include (but not limited to):

- Status
- Efficiencies between the GSAs
- Process and timing
- Necessary technical components
- Decision points
- Feedback loops
- Next steps
